KOBE MARITIME INNOVATION WEBINAR

Expand Your Maritime Business to Japan Through Kobe

18 Nov 2026

16:00-17:30 (JST) | ONLINE ZOOM | FREE ADMISSION

WHAT THIS WEBINAR COVERS

Kobe is a major port city and a gateway to Japan's Kansai industrial region. This webinar offers a brief overview of Kobe Port, reverse pitches by Japanese companies, a case study from an international company in Kobe, and a short briefing on JETRO's upcoming invitation program and next steps.

AGENDA

- **Introduction to Kobe City's initiatives in the port and maritime sector**
- **Japanese companies Reverse Pitch**
  1. **KUNIMORI ENGINEERING WORKS CO., LTD.** — Kobe-based marine technical trading company providing essential parts to vessels worldwide and engineering services.
  2. **MLC Ventures, Ltd.** — The corporate VC arm of Mitsubishi Logistics, investing in startups across logistics, supply chain and real estate to connect emerging technologies with real-world operations.
- **Case Study from an International Marine Company Operating in Kobe**
  Turbo Systems United Co., Ltd. — Kobe-based provider of sales and services for Accelleron and IHI turbocharger products in Japan since 1998.
- **Introduction to the upcoming invitation program**
